

Controller

We are currently seeking hands-on, motivated Controllers with excellent leadership and problem solving skills, and strong organizational and multitasking abilities. A designation is preferred however Taligent also recognizes in-field experience.

As a Controller in our dynamic environment you will be an integral part of our client specific team approach. You will travel to different clients within the GTA where you will be responsible for:

- All reporting and accounting functions;
- Providing necessary guidance and training to Staff Accountants; and
- Handling day-to-day management of client accounts with limited supervision and guidance.

Although you will report to an Account Manager who is ultimately responsible for client relations, you will be the day-to-day face of Taligent, and so your professionalism and communication will be strongly relied upon.

If you are looking for a rewarding and challenging opportunity, and you have the attitude, skills and knowledge to handle multiple clients in an effective and efficient manner, then now is the time to apply in confidence to inquiry@taligentgroup.com.
